

WHAT WE DO

DB Solutions Group provides several technology solutions for businesses. Whether it be application development, custom e-commerce sites, website hosting, website optimization, quality assurance, or project management, we can provide the right solution and/or resources to help your organization succeed.

Our goal is to partner with our clients to assist them with any of their Information Technology needs. If we cannot provide the appropriate service and/or solution, we can match the right partner for your specific need.

YOUR TECHNOLOGY PARTNER

We provide a variety of Information Technology solutions for our customers. Our primary goal is to establish long-term partnerships to ensure that we are providing the best strategic solutions and services possible. We can work with your company directly or we can provide staffing to meet any long-term project requirements that your organization might have.

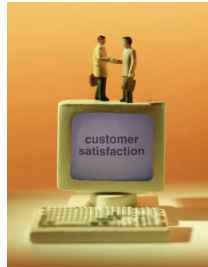

The primary solutions that we provide are:

- JDA MMS®, PMM®, and Win/DSS™ Product Services
- Custom application development and integration
- Database driven e-commerce websites
- Database driven information portals for both internet and intranet
- SEO (Search Engine Optimization)
- Full featured web hosting services
- Project life-cycle management and consulting.

OUR CORPORATE VALUES

We continuously strive to maintain corporate values to ensure that we can build strong partnerships with our clients. Our aim is to consistently meet or exceed our customers' expectations through integrity, honesty, and delivery of quality products that match each individual requirement. In doing so, we feel that we can gain our customers' trust and build high levels of customer satisfaction.

OUR MISSION

Our mission is to be a leader in providing valuable, cost-effective, and innovative strategies and solutions through a wide variety of services and products. It is our continuous goal and focus to work with our customers to better understand their uniqueness so that individually tailored solutions can be developed to meet their needs.

To do this, our primary business objectives are:

- Create and maintain long-lasting relationships with our customers through our corporate values.
- Continuously strive to strengthen our knowledge of our market and our customers' market's to ensure we are providing the best value-added solutions.

- Provide cost-effective, appropriate, and valuable solutions that enable our clients to meet their current and long-term business needs.
- Simply, we want to worry about your Information Technology problems so you will not have to.
